Testimonials

Kayleigh Hall
Development Manager

"Angel tackles any new language or challenge with enthusiasm and determination. He is a great team member, willing to help others out when needed, an asset to any team."

Tessa Dempsey
Project Manager

"Angel has really impressed me with his attitude and approach towards working on languages outside of his comfort zone. He is very concise and communicates well when working in a team setting. "

Summary

I am a software developer with a strong interest in both front-end and back-end web development and over a year of commercial experience.

I have worked with React/TypeScript to create an admin app for Legalesign customers. We have developed the app from scratch and have just deployed it for testing. I have extensively been in charge of the front end development using a component library created by me. We use Tailwind as our CSS library. I work in a close collaboration with our designers using Figma. We use Agile framework and Jira on two weekly sprints to track our progress.

I am eager to continue my journey with a mid level developer position where I can continue learning as well as using my experience to bring extra value to the projects I work on. I am passionate about working for a company where I can not only work as a developer but have the opportunity to learn from experienced developers and progress my career.

Skills

HTML
Extensive experience. Comfortable with **semantic markup** and **general structuring**.

CSS
Extensive experience with Tailwind. Comfortable working with **SASS** and **responsive designs**

JavaScript
Experience in **vanilla JavaScript** as well as **jQuery** and **AJAX**. Experience working with **object-oriented** JS.

React
Used **React** to create interfaces for apps as well as to call on **APIs**. Worked with **functional components**, **lifecycles, hooks, routing and rendering elements**.

Vue.js
Experience with **Vue** and **Vue CLI**. Worked with **components**, **forms, fetching data, routing and rendering elements**.

PHP
Solid knowledge in **functional** and **object-oriented PHP**. Used it to create functional backend features such as storing data from a contact form.

SQL / GraphQL
Used regularly to perform advanced queries using **Joins** and **Subqueries**. Also used GraphQL queries and mutations to update data using APIs.

WordPress
Solid knowledge of its features such as **plugins** and **themes**. Experience working with **Elementor** and **WooCommerce** as well as **SEO** understanding.

Agile / Jira / Teamwork
Worked on a by-weekly basis using Agile framework and Jira to track our progress. Worked closely with the design team as well as other developers.

GitHub
Expert knowledge as I use it frequently to commit changes on solo and team projects. Solid knowledge of **merging, submodules** and **version control**.

Experience

Partnerships Specialist
Booking.com
2015 - 2020

- Lead the partner conversation cycle and handle objections with the ability to influence decision making whilst building productive and long-standing relationships.

- Organise workshops with the team to gather input and implement efficient daily routines and business strategies - being the best performing team in the office.

- Work on projects to improve partner visibility on the website, analyse performance and present the tools/services of Booking.com to partners.

- Accountable for improving the commercial performance and product offering.

- Exceed targets and recognised as one of best performers in the last year - delivering excellent partner satisfaction.

Operations Manager
Menzies Hotels
2014 - 2015

- Managed a team of 5 to deliver exceptional customer service to partners and guests.

- Ensured effective communication across the team, including raising awareness of department security procedures, such as cash, stock and equipment handling.

- Worked closely to all other heads of departments and the General Manager to guarantee effective management of budgets, revenue proposals and forecasting results.

Programming Experience

2022-Present **Legalesign - Junior Developer**

- Interpret graphical wireframes, translating them into pixel perfect, responsive web pages

- Write maintainable and tested code committing to accessibility, web standards and usability

- Debug code when it doesn't work as expected or bugs have been found

- Development of new application features such as toast notifications, tooltips, forms

- Work on our own component library which uses TypeScript

- Regularly attend and contribute to sprint planning and workshops

- Participating in code reviews and quality assurance activities

- Documentation writing to ensure our code is easy to use

- Stack used: React, JavaScript, Tailwind, TypeScript, GraphQL, Github, Figma, AWS and Jira

Education

2021-2022 **Scion Coalition Scheme**

- Undertook an intensive, specially tailored training program under the supervision of senior web developers in the industry. This course is 40 hours per week and simulates employment as a developer to ensure the trainee is prepared for full time employment.

- Studied front-end and back-end development including UI/UX design, mobile development, object-oriented programming and databases.

- Worked in a small team developing a brand and website for a small independent bakery using HTML, CSS and JavaScript.

2011-2012 **Robert Gordon University**

- Graduated with a MSc degree in International Tourism and Hospitality Management

2007-2011 **Sofia University**

- Graduated with a BA Bachelor's degree in Geography

Hobbies

Tech
I love bringing home the newest technology, either new parts for my PC or any new device on the market (like smart speakers, cameras or streaming devices). I can spend all day just learning about their features and trying to break what I can. On top of that I enjoy building and fixing PCs. I still use my old laptop but have changed almost all its hardware.

Travelling
Outside of computers and technology I love travelling and visiting new places and learning about their cultures. I have travelled all over the world and love to learn something new every time I visit a new place.I also love going for a walk in nature with my dog and enjoy the local landscape.
