Frontend Engineer with 4 years of experience at Legalesign, a secure enterprise eSignature platform. Expert in React, TypeScript, and GraphQL, with a track record of architecting high-performance applications from prototype to production. Strategic decision-maker who saved 2–3 months in development costs through smart architectural choices.

TECHNICAL CORE

React • TypeScript • JavaScript (ES6+) • GraphQL • Amazon Q • Claude • GitHub Copilot • Tailwind CSS • SASS • Cypress • Stencil.js • AWS • Figma • NPM • Jira • CI/CD Automation

PROFESSIONAL EXPERIENCE

Frontend Engineer | Legalesign

April 2022 – Present

Lead Project: The Signing Application (Embedded Component)

- **Senior Leadership:** Acted as Lead Developer for the embedded signing component, enabling customers to integrate Legalesign functionality directly into their platforms.
- **Strategic Architecture:** Recommended and implemented a React core wrapped in Stencil.js; leveraged team expertise to save 2–3 months of development costs.
- **Technical Execution:** Engineered the component from scratch using React, TypeScript and SASS, prioritising high security, performance and testing.

Core Platform: Main Customer Console

- **Product Ownership:** Developed the flagship customer-facing admin panel for preparing and tracking critical document lifecycles.
- **Design Implementation:** Translated complex Figma wireframes into pixel-perfect, responsive interfaces using Tailwind CSS.

Infrastructure: Component and Widget Library

- **Library Architecture:** Built a comprehensive in-house library of reusable components and widgets using Stencil.js, TypeScript and Storybook.
- **CI/CD & Deployment:** Automated deployment to NPM and implemented unit testing to ensure codebase stability across the suite.
- **Commercial Prototyping:** Created a 'Widgets Library' prototype to demonstrate modular UI features to enterprise customers.

QA Leadership & CI/CD Automation

- **Deployment Automation:** Engineered robust CI/CD pipelines for all applications, automating version bumping and ensuring tests are part of the PR process.
- **Test Automation:** Led the adoption of Cypress across the company, automating E2E testing for mission-critical signing workflows.
- **AI Productivity:** Integrated Amazon Q and Claude to refactor legacy code and increase sprint velocity.

Additional Application Suite (Legacy Modernisation)

- Reporting Tool: Built a standalone analytics application from scratch to replace legacy console parts.
- Support & Bulk Send: Engineered dedicated applications for internal support and high-concurrency enterprise distribution.

Partnerships Specialist | Booking.com

2015 – 2020

- Managed high-value commercial relationships and led partner negotiation cycles.
- Organised workshops to streamline business processes and implement high-performance routines.
- Work on projects to improve partner visibility on the platform, analyse performance and present the tools/services of Booking.com to partners.
- Accountable for improving the commercial performance and product offering.
- Exceed targets and recognised as one of best performers in the last year - delivering excellent partner satisfaction.

Operations Manager | Menzies Hotels

2014 – 2015

- Managed a team of 5 to deliver exceptional customer service to partners and guests.
- Ensured effective communication across the team, including raising awareness of department security procedures, such as cash, stock and equipment handling.
- Worked closely to all other heads of departments and the General Manager to guarantee effective management of budgets, revenue proposals and forecasting results.

EDUCATION & TRAINING

- Scion Coalition Scheme: Intensive 40-hour/week developer training program.
- Robert Gordon University: MSc in International Tourism and Hospitality Management.
- Sofia University: BA in Geography.

TECHNICAL INTERESTS

- Hardware & Home Automation: Passionate PC builder and technology explorer; actively maintain a custom Home Assistant server to manage smart home automation.
- Global Travel & Outdoors: Avid international traveller dedicated to experiencing new cultures, balanced with exploring local nature trails with my dog.
